AT

MEMORANDUM FOR: [REDACTED] IC/PRG

SUBJECT : KEP Proposed Displays

1. Attached are brief explanations and graphic displays of proposed computer-generated KEP outputs. They consist of:

- a) The KEP Baseline Report
- b) The KEP Performance Report
- c) The KEP Aggregate Displays

2. These represent the proposed KEP computerized system to be developed and made operational by late September, 1974.

STAT

3. [REDACTED] personnel will design the data base, program the input edit routines necessary to process the KEP input data and will develop procedures so that IC Staff personnel can input the data into the data base. [REDACTED] will also write the programs to create the Baseline and Performance Reports and will set up the software routines to create the KEP aggregate reports.

STAT

4. [REDACTED] plans to develop input procedures so that IC Staff personnel can use CRT terminals to input data into the system. Any training necessary for ICS personnel will be provided [REDACTED]

STAT

STAT

5. Would you please review the attached output displays and approve this proposed system. As soon as approval is received from the KEP Monitor [REDACTED] program specifications will be written after which programming can begin.
